

THE MOUNT OLIVE RETREAT

The Mount of Olives is mentioned throughout history as a place of refuge and safety. The Mount.Olive Retreat by MossCreek is designed to similarly provide a refuge from the cares of ordinary life. "Natural Element Homes™ Personified" begins to describe this charming mountain home. Covered porches include an outdoor living space replete with wood burning fireplace. Trusses, roof overhangs, tapered stone support columns and twig railing are a few of the mountain accents.
